

# Toptank Mobile Tanker Access System

MOBILE TANKER FALL PREVENTION SOLUTIONS

Safely access the top of road & rail tankers and ISO containers without the need for fixed gantries

## Features and Benefits

- Lightweight mobile design ideal for easy use and storage
- Adjustable access position to fit all tanker sizes
- One person operation allows easy positioning and access
- Robust steel safety cage extends over tanker to give operator excellent fall protection.
- 3 cage size options for:
  - Cage 01 Petroleum & general purpose tanker
  - Cage 02 ISO Tanks
  - Cage 03 Double size cage for ISO tanks with double man ways,

## Uses include:

- Road tanker servicing & maintenance
- Product Sampling
- Batch testing and checking
- Trailer roof access for cleaning & maintenance
- ISO container access for maintenance etc.

**Meets all Health and Safety requirements for operator safety whilst working at height**

S1004D Datasheet

SAFE TANKER ACCESS SOLUTIONS

# Leaders in tanker access

## Technical data:

### Materials :

Non corroding Aluminum access steps  
closed steel tube handrails and frame, fully powder coated  
Rubber wheels, nylon ropes & stainless steel fixings

### Dimensions:

Ladder height = 2.95m, adjustable to 4.55m  
Minimum total height, including cage, 4.12m  
1.75m square safety cage, 450mm wide access steps  
Base width = 2.5m

### Cage Height Range (from ground level to bottom of cage):

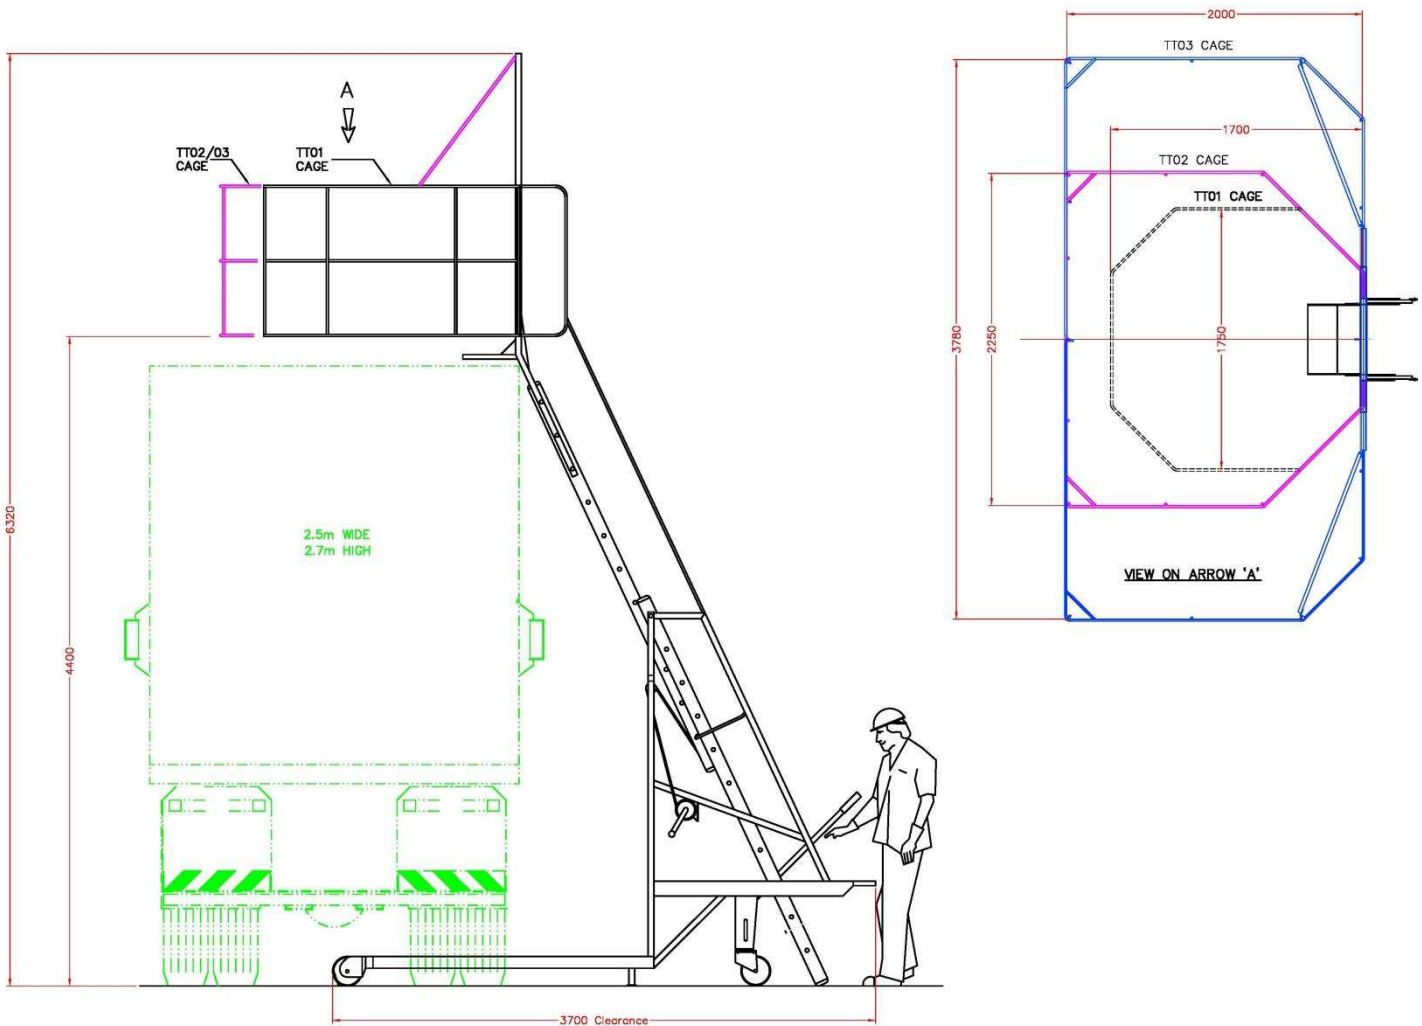

Min cage height = 3000mm  
Max cage height = 4400mm

### Stability:

Max. ladder deflection:10mm  
Wheel diameter: 200mm

### Operation:

Can be used in gusts up to 60km/hr  
Safe single operator use and access  
All six supports in ground contact ensures solid safe base  
Horizontal door & extended cage
